

Patented

Specifically for the Fulfilment Companies

► Principle

For fulfilment companies and especially retail distributors, Kay Pal® Couche is an excellent improvement on traditional wooden interleaving pallets, using the 100% cardboard Kay Pal® pallet.

► Technical features

Kay Pal® Couche is a pallet comprising:

- A 10mm reinforced double tray.
- Three highly rigid feet.
- Rolled cardboard cores, providing high resistance to static compression. Thanks to its high rigidity and solidity, it can be safely used several times. The system is safe and does not increase humidity levels.
- Kay Pal® Couche is 100% recyclable.

Kay Pal® Couche provides maximum protection for your products, preventing case warping thanks to a flat upper tray. Its high standards of cleanliness and hygiene (plus accessories such as sheets and slip-sheets) mean that it is also safe for food.

The information contained in this document is indicative and not binding. The Producer reserves the right to change the product and related technical features. The information, provided in good faith, does not imply any guarantee on our part for specific conditions use.

▶ Economic or commercial advantages

Kay Pal® Couche helps to increase productivity because it is easier to handle:

Lightness: 3 kg.

Reduces or prevents deterioration of packaging and breakages during transit.

Safety (no more nails or splinters).

Trackability (bar-codes on the feet).

Racking possible with maximum weight of 250 kg.

▶ References

The new service we are providing to our retail distribution clients has been very favourably received, particularly in sectors where fulfilment companies regularly have to deal with breakages.
