

Specifically for the Retail Distributors

▶ Principle

Maximum product enhancement. This is a two-in-one system, where a case can be instantly transformed into a presentation tray or counter display.

▶ Technical features

The case can be opened easily and quickly, without the need for a cutter, using a specially integrated tear-off strip. The Klean Cut system uses two highly resistant polyester strips, one attached to the inside cover and the other in parallel between the fluting and the outside paper. It can be adapted to any type of packaging:

- ▶ Regular slotted cases.
- ▶ Die-cuts.
- ▶ Containers.

► Klean Cut:

- Special tear-off strip ensures a proper cut.
- Packaging can easily be transformed into display box.
- No need for a cutter.

The information contained in this document is indicative and not binding. The Producer reserves the right to change the product and related technical features. The information, provided in good faith, does not imply any guarantee on our part for specific conditions use.

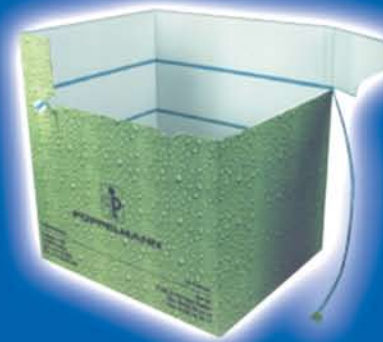

► Economic or commercial advantages

Klean Cut has the advantage of being both a traditional type of packaging and a point-of-purchase display case. Secondly, it can be used on all automation lines without any modification.

► References

Adaptable to all types of packaging, whether double face or lightweight double wall, Klean Cut is regularly used by Procter & Gamble, Best foods France, Reckit Colman, Wrigley, etc.
