Patented

Specifically for the Retail Distributors

► Principle

Lin Kay Plus® enables clients to transfer products quickly and directly onto supermarket shelves from a simple regular slotted case or wrap around.

► Technical features

So that it can be adapted to different situations, Lin Kay Plus® consists of two parts:

- A regular slotted case with tear-off strip.
- A Wrap with a precut opening.

There is no need for existing automation machinery to be altered. It has a European patent.

* SRP: Shelf Ready Packaging

▶ Lin kay Plus®:

- System adaptable to:
 - regular slotted cases
 - wrap around
- Means that products can be transferred quickly and easily onto the shelf.
- No special automation.
- Significantly increases shop productivity.

The information contained in this document is indicative and not binding. The Producer reserves the right to change the product and related technical features. The information, provided in good faith, does not imply any guarantee on our part for specific conditions use.

▶ Economic or commercial advantages

This new service enables retail distributors to offer a competitive advantage at very little or no additional cost.

Shop workers save around 20 seconds per package and can easily transfer products onto the shelf.
