

# PB BOX

## ▶ Principle

The PB - BOX is a corrugated board container with an integrated pallet.

The PB-BOX is very quick and easy to assemble - once the corrugated beams are pushed through the corrugated sleeves, the bottom is closed and the whole pack, complete with pallet, is ready for use.

## ▶ Technical advantages

The PB-Box is delivered flat, easy to assemble and very strong. Multi colour print is possible.

The PB-BOX can be used for transport by rail, road and sea, and also for air freight.

Either heavy duty double wall or triple wall corrugated can be specified, so that the PB-BOX can withstand extreme transport conditions.

## Commercial and financial advantages

Delivered flat – reduces storage costs in the warehouse.

Very low tare weight - gives additional cost savings compared to heavy wooden pallets and boxes.

Several standard sized packs are always available, for quick delivery from stock.

Special constructions can be designed, to handle your specific product.
